

COBRA OWNERS CLUB OF AMERICA ORANGE COUNTY
SPECIAL EVENT

Not open to the public

Astor's

Automotive and Communications Museum

Art Astor is the owner, President and CEO of the Inland Empire's KSPA AM 1510 (softer side of the '60's, '70's, and '80's) and North San Diego's KFSD AM 1450 (classical) and KCEO AM 1000 (financial news and talk). Art is a veteran of over 50 years in Southern California broadcasting.

Mr. Astor is a California native, born in Fresno to Armenian-immigrant parents who came to this country to escape the genocide. Art has been a Southern Californian since his father, an attorney, relocated his young family to Los Angeles when Art was only 5 years old. Art's education included graduation from Los Angeles High School and, after a tour of duty with the Air Force, he returned to attend the University of Southern California and earned a degree in communications.

Art's automobiles are his second passion, radio being the first love of his life, with some 270 cars now in his collection. The classics range from Packards to Pontiacs, Morgans to Mustangs, several Jaguars, Rolls Royces, and Howard Hughes' 1940 Cadillac Formal Town Sedan, to name just a few. Each of Art's cars is special in some way: perhaps it is a rare vehicle, or has an interesting history, or reminds Art of some special event in his own life. Every car is a "driver," and Art takes each one out for a spin every few weeks.

Additionally, Art has created a museum which houses the world's largest collection of working and beautifully restored antique telephones and radios. He has wonderful collections of model trains, gas pumps, antique slot machines, pedal cars, movie memorabilia and other interesting "stuff."

SUNDAY, MAY 4, 2008

11 AM to 2 PM
